

SEWER'S VISION

Elevate Your Crafting Experience

Need a large worksurface, and the option to stand or sit while using your machine? We have the perfect answer! Horn's Sewer's Vision height adjustable table is a 2-in-1 sewing and cutting workstation which gives you a spacious and smooth surface, allowing you to spread out and work with your largest projects without any fuss, and can be lowered or raised to your ideal working height.

- 1 The two-step manual lift mechanism enables you to switch between free arm and flat bed sewing positions easily.
- 2 Fitted with our Maxi inset opening (size 1952), which allows a totally flush sewing surface.
- 3 Capable of fitting almost all domestic sewing machines available on the market.
- 4 The generous work area prevents large projects from dragging or coming into contact with the floor.
- 5 Shift from sitting to standing by simply turning a handle, adjusting the table height from 72cm to an impressive 102cm.
- 6 This model comes with a custom-cut acrylic flatbed inset designed to perfectly fit your sewing machine.
- 7 By pulling an easy-release spring-loaded lever the table can be flipped onto its side, enabling convenient storage.
- 8 The 1" thick table top has a tough, impact-resistant ABS edging for enhanced durability. Additionally, rounded corners are designed to prevent you and your material from snags and injuries.
- 9 Four large, lockable, semi-industrial castors allow superior locking ability as well as easy movement.

The Tall Hobby chair is the perfect companion for this table. See pg.30 for more information

The Sewer's Vision features an unbelievable 64" x 36" of crafting worksurface to keep any of your projects from falling to the floor.

The table can easily be folded away vertically for storage when not in use.
